Gold, Silver and old Bank Notes, and United States compound Interest Notes.

I. O. O. F.—GRAND LODGE OF THE UNITED STATES.—The R. W. Grand Lodge of the United States met in the city of New York on the 18th inst. Representatives were present from every State and Territory in the Union, as well as from the New Dominion.

Among the resolutions adopted by the Grand Lodge during its session were the following:

Resolved, That any member of a subordinate lodge or encampment of this order failing to pay his regular dues as required by the by-laws of such subordinate until the arrears thereof, exclusive of fines and assessments, are equal in amount to one year's dues, shall be held to have voluntarily resigned his membership in such subordinate, and shall be dropped from the roll thereof, and he shall take rank in the order from and after such dropping from such roll as an Ancient Odd Fellow, provided, however, that no member shall be thus dropped while under charges for misconduct.

Resolved, That any person thus dropped may be re-admitted to membership either in his former subordinate lodge, or in any within the jurisdiction of this order, subject to the general and local laws regarding residence, upon application in the same manner as may be required of a candidate for initiation; and he shall pay an admission fee in no case to exceed the customary initiation fee provided for by the by-laws of the subordinate lodge to which such application may be made, and he shall take such rank only in such subordinate lodge as he may prove himself entitled to.

Resolved, That the provisions of these resolutions shall apply to all persons heretofore suspended, expelled, or dropped from membership for non-payment of dues and for no other cause, and to members of subordinate lodges or encampments.

Resolved, That the foregoing resolutions shall have the full force and effort of a positive law, and shall go into operation from and after the adoption thereof by this grand body. State bodies are hereby directed to promulgate the same for the instruction of their subordinates without unnecessary delay, and further to make all local legislation necessary to give effect hereto in their several jurisdictions.

GAMBLING BY RAIL.—A New York paper says:

Since the introduction of smoking cars with card tables upon our roads many professional gamblers who formerly operated on steamboats have betaken themselves to the rail, and ply their vocation among the unsuspecting representatives from the rural regions. Travelers are solicited to take a hand at the card table for amusement, and are then persuaded, in order to "give more interests to the game," to stake at first a small and afterwards large amounts. On nearly all of our roads this card gambling is becoming a daily occurrence, and, unless suppressed, threatens to become universal.

☞ Secretary Wells has ordered to be sold in October next, a large number of steamers and sailing vessels for which the Government has no further use. The sales are to be made at the New York, Philadelphia, Boston, Washington and Norfolk navy yards.

DIED—At the residence of John C. Terry, five miles North of this place, on the evening of the twenty-fifth of September last, MATILDA TERRY, wife of John C. Terry.

Mrs. Terry was born in Tennessee in 1809. She was married to Mr. Terry, and moved to Alabama early in life—where she lived until her decease. She was converted and joined the Methodist Church in 1830 and 1831—of which she remained an accepted member the remainder of her life. She has left behind her the evidence of a well spent life.—Her bereaved husband, children and many warm friends mourn for her.

Rest the pain of life is past,
All her warfare now is o'er,
Death and hell behind are cast,
Grief and suffering are no more."

Talladega, Ala., October 2nd, 1867.

FROM TEXAS.

We have Galveston advices to the 23d inst.

The Houston Firemen's Charitable Association, acting as "Howard Association," have on hand 142 sick, and 63 paid nurses, expenses $450 per day, income $20 per day, in debt $1050; have sent 6 nurses to Brenham, 2 to Alleyton, 5 to Harrisburg, and 10 to Navasota—in all 26.

Without assistance, the Galveston News says, comes speedily to the association, it will "go by the board," for it is impossible for them to carry on the immense amount of good done by them without they have sufficient money and Washington Hill, in particular, required.

At Millican the mortality is 10 per cent. At Houston, on the 20th, 13 deaths, of which two were by yellow fever, them Dr. R. Haynes, Mrs. Dreyfus, Mrs. Mary Turner, and L. J. Warner, Chief Clerk of Freedmen's Bureau.

The Houston Telegraph is reduced to a half sheet, on account of sickness among its printers. Nine of them are absent—six sick, one has just died, and the other three are acting as nurses.

The fever is at its height at Lagrange Huntsville, Hempstead, Millican, Alleyton, Navasota, and other places. Sub rosa, at Warrenburg. Sixty cases at Salem, chiefly.

The Civilian says:

At Hempstead the doctors are all dead or down with the fever. Not one physician in the place fit for duty. At Alleyton the same state of affairs exist. No physician and not a drug store in this place.

Great need exists for ice, lemons, mustard, etc., and good nurses. The Galveston Howards have sent 87 nurses and several physicians to the interior, but there is a constant demand for more.

The Association is greatly in need of funds.

At Galveston the epidemic appears to have run its course. On the 22d, the death-by it were 7—for the week ending the 21st. 66—from the commencement of the fever to September 22, total deaths 1,128, of which 999 were by yellow fever.

The San Antonio papers, of the 19th say that the Indians infest the lines of travel, and are committing depredation daily. The troops seem to be inadequate to the protection of the people.

Much sickness prevails on the Guadaloupes.

The San Antonio Herald says that no courts will be held in Boerne, and Kendall counties, because of an Indian raid into the town and settlement. Many of the settlers have gone in pursuit, and those who have remained at home are afraid to leave their families to go to town—hence, no jurmen.

It is remarked by the press that no year of the last thirteen can show such a fall of rain as is occurred this year in Texas. We can assure our cotemporaries that Texas is not singular in that respect.

The people of Gonzales are taking precautions against yellow fever.

The Goliad Guard says that crops are most profitable for that section. The editor of the Guard planted ten acres of cane, and believes with a good will and proper attention he could have made forty or fifty barrels of good syrup, which at seventy-five cents per gallon would have yielded one hundred dollars per acre.

Horse thieves abound about Goliad, but the activity and vigilance of the militarp and citizens are thinning their numbers perceptibly.

The Indianola Bulletin, of the 18th says that instructions had been received from district headquarters to break up the quarantine at DeCrows Point.

On the 21st there were one hundred cases of yellow fever under treatment in the little town of Huntsville. Forty persons had died up to that date. The Galveston Bulletin, of the 21st, has the following statement of the condition of the people of Huntsville.

A gentleman well known in this community yesterday evening received a most touching letter in relation to the fever at that place. There is deep distress there. Nearly every person of any prominence is down sick with the fever, or dead, and they are out of all the necessaries for the sick room. There is no mustard, lemons or medicine left in the town, and they are loudly for help.

The San Antonio Herald notices quite an improvement in the accounts which reach them, concerning the cotton crops. It is now admitted, that notwithstanding considerable damage done the crop, that the up counties will make an average yield—as much as could be saved.

The Galveston News of the 22d has the following about the epidemic at La Grange. Major Mangum reports the fever about at its height. The indications are that it will from now abate. He is in need of sundry articles which the Howard Association will or has forwarded.—Judge Shropshire's family improving.

☞ Admiral Semmes, the able editor of the Memphis Bulletin, has retired from the editorial department of that excelent paper.

Governor Patton investigated the Dog river outrage while in Mobile and upon his arrival in Montgomery sent the following dispatch.

EXECUTIVE DEPARTMENT,
STATE OF ALABAMA,
Montgomery, Sept. 25, 1867.
A. M. Granger Esq., Sheriff of Mobile county.

After mature deliberation in regard to the cases of Richardson, Robinson and Grant, I have concluded that it is my duty to interfere no further with the regular course of the law.

R. M. PATTON.
Governor of Alabama.

These negroes were sentenced to be hung on the 30th of August, and were respited by the Governor until the 27th of September.

FROM MOBILE.

MOBILE, Sept. 28.—Three negroes, who committed the [illegible] outrage, were [illegible] this morning.

REGISTRATION IN GEORGIA.—We have been creditably informed that the registration of voters in Georgia has been concluded. The result, we learn, is as follows.

Whole number of white voters...95,338.
Whole number of colored voters...93,390

Total number of voters registered 188,728
Majority of white voters.....1,948

[illegible] that the details either way from the above.

—[Atlanta New Era.

PROJECT OF A MANUFACTORY.

Every successful projector of a Southern manufacturing company is a pioneer in the cause of Southern independence. And by this we do not mean political independence *per se*, but industrial commercial and financial independence, which are the indispensable bases of political independence. We are happy to perceive a decided awakening of the spirit of enterprise in this direction. In our neighboring State of Georgia great strides have been taken since the close of the war in untilizing its natural advantages for wealth by the application of capital and energy. Alabama enterprise is stimulated by the near and noble example and the Southern people generally appear to be finding out by degrees that there is something else to be done in this world besides growing cotton. In this connection we are glad to have before us, in pamphlet form, the prospectuson the "Sibleyville Manufacturing Company in which is proposed to organize a stock company by this name for the purpose of erecting and operating extensive cotton and wool factories, paper mills, sash and blind factories, &c., &c., in the vicinity of Mobile The site proposed is on Fowl river, 22 miles by the military road West and South of Mobile and about five miles from the mouth of that river on Mobile Bay, where there is good anchoarge for vessels drawing from 14 to 20 feet. On the tract of 3,600 acres, proposed for the works there is already a large saw mill in successful operation cutting 12,000 feet of lumber per day, and an extensive and cos ly water dam, affording the greatest abundance of water power power for all the machinery contemplated. It is proposed that the company purchase the property, the larger part of the value of which will be taken in stock of the company. The prospectus sets forth a great many advantages as to location, good water, salubrity of climate, abundance of fine timber, proximity to markets by M. and N. O. Road, and by water, &c., &c., for which we must refer the reader to the pamphlet, and to Messrs. Crawford Blackwood and A. M. Mcdowal, Esq's. We trust that merchants, planters and citizens generally having surplus capital, will promptly fill up the subscription list, and thus erect what Brick Pomeroy calls another "batterry of Southern independance.

SAD CASUALITY.—We learn that two little boys, living, on McKim creek, Bitchie county, came to their death in the following manner: One of the boys crawled under the house to find some eggs they supposed to be there, and came out in a few moments, saying the hen had bitten him. His brother then crawled under the house, and before he came out, the first one dropped dead. The other one failed to appear, and was at last brought out dead. It was feared that a rattle snake had a nest under the house and had stung the boys. Search being made, their fears were sadly realized. A rattlesnake was hauled out and was found to quite fill a bushel measure. The above is vouched for by reliable persons cognizant of the facts.—[Parkersburg (W. Va.) Times.

Be it ordained by the Board of Mayor and Aldermen of the Town of Talladega.

"That if any person or persons shall Sell, give away or otherwise dispose of any Spirituous or intoxing liquors between six o'clock Monday evening, Sept. 30th, 1867, and six o'clock Friday morning of October 4th, 1867, within the Corporate limits of the Town of Talladega. Such person or persons so offending shall be arrested and held subject to Military Orders; and any liquors so held for sale or being given away, will be seized and held subject to orders from Gen'l Swain, at the cost of the person or persons so offering the same

All citizens are earnestly requested to report all violations of the Town.

Published by order of the board of Mayor and Aldermen.
